

Mohamed Ashraf Ibrahim

EGYPT, CAIRO • +201017568012 • MOHAMEDASHRAF2832@GMAIL.COM • [LINKEDIN](#)

Python & PHP Back-End Developer and Mechatronics Engineer with expertise in **automation, RPA (UiPath, Power Apps), web scraping and AI-driven tools**. Skilled in **Django and Laravel**, proficient in designing and optimizing back-end systems and workflows with a focus on scalability, efficiency, and intelligent process orchestration. I combine engineering thinking with software development to deliver practical, reliable, and business-oriented solutions.

➤ Education :

BSc in Mechatronics Engineering | Egyptian Russian University (Expected Graduation: 2026)

- Relevant Courses: Embedded Systems, RPA Development, Python Programming

➤ Projects :

Python Development : Automation, Web Scraping, Desktop Apps

- Web Scraping Bots • Desktop POS System • Excel and data handling tools • Scripting • Agentic Ai flows

Django Backend Projects : REST APIs, Security, Full-Stack

- API-Centric Web Platform • Template Optimization

RPA & Automation Engineering : UiPath Power Apps Workflow Design

- Enterprise Process Automation • Power Apps Workflow Suite • Web-to-Database Pipeline

➤ Experience :

Kayanac - Laravel ERP Developer (Full-time)

Feb 2026 – present

- ERP Full_Stack development using **Laravel MVC structure**.
- Background task **orchestration** via **Queues, Workers, and Scheduled Commands**.
- **Authorization design** using **Policies, Gates, and Middleware**.
- Data modeling with **Eloquent ORM, custom scopes, and query optimization**.
- **API development** with **Form Requests, Resources, and Exception Handling**.

Intellivay – CRM Developer & Automation Engineer (Full-time, Remote)

Aug 2025 – present

- **Manage and enhance** CRM systems to optimize **workflows** and improve **customer engagement**
- Create **automation** and **Python-based tools** for **data scraping** and **system integration**
- Lead technical **problem-solving** and cross-team coordination to ensure smooth **CRM operations**

IEEE ERU Python/Django Mentor:

Trained 50+ students in backend development and Python Scripting.

➤ Skills :

Programming Languages and frameworks :

- **Advanced:** • Python (Django, Flask, odoo, Automation Scripting)
- **Proficient:** • JavaScript • C • SQL • PHP (Laravel)

CRM & ERP Systems Development

- Custom Module Development
- ORM Models & Business Logic
- CRM & ERP Workflow Customization
- API Integration & System Automation

Laravel ERP (PHP):

- ERP Backend Architecture (Controllers, Services, Jobs)
- Business Logic & Financial Workflows Implementation
- RESTful APIs & Database Transactions
- Role-Based Access Control (Policies & Middleware)

Automation Engineering :

- **Python Automation:** • Selenium • Playwright • Cloudscraper • PyAutoGUI • Apify SDK • Scrapy
- **Bot Development:** • Web Scrapers • Telegram-Chatbots
- **OS-Level Scripting:** • File System Operations • Process Automation • Registry Management

Web Development :

- **Frameworks:** • Django • NodeJS • Express • Laravel • React
- **Frontend Technologies:** • AJAX • JSON/XML Processing • DOM Manipulation
- **Databases :** • PostgreSQL • SQLite • MySQL • ORM • MongoDB

RPA & Low-Code Platforms :

- **UiPath:** • Workflow Design • Screen Scraping • Citrix Automation • REFramework
- **Power Platform:** • Power Automate • Power Apps • SharePoint Integration
- **N8n:** • Workflow Automation & Integration • ai agents

Core Concepts & Paradigms :

- **Data Handling:** • JSON • XML • YAML • Data Parsing/Transformation
- **Web Protocols:** • REST • HTTP/HTTPS • Webhooks

➤ Tools & Platforms:

- **RPA & Automation :** • UiPath Studio • Power Automate • n8n
- **Backend Tools :** • Postman • Git/GitHub • Docker

➤ Soft Skills :

- **Professional English:** (technical documentation/presentations)
- **Effective Team Leadership:** (Agile coordination - technical mentoring - conflict resolution)
- **Exceptional Technical Communication:** (simplifying complex concepts)
- **Behavior-Based Negotiation:** (body language - team motivation)
- **Pressure Management & Crisis Resolution:** (fast-paced environments - shifting priorities)
- **Collaborative Adaptability:** (hybrid teams - multidisciplinary work - remote efficiency)
- **Continuous Improvement Mindset:** (performance analysis - solution optimization - proactivity)

➤ Languages :

- Arabic (Native)
- English (Intermediate ,B2)
